COMPANY PROFILE

2025

**INDIA'S LEADING WOOD
VENEERS MANUFACTURER**

HI THERE!

Discover Gracious Veneers Pvt. Ltd – a name synonymous with trust, quality, and craftsmanship in the world of veneer manufacturing and supply. We present a curated selection of high-grade veneers that seamlessly combine style and functionality to transform interior spaces.

Our diverse portfolio of veneer sheets is crafted to enrich interiors with the perfect harmony of eco-conscious design, advanced technology, and natural charm.

Pioneering innovation in veneer design, we offer textured surfaces, fluted patterns, and vibrant color options—opening up limitless design opportunities. Our state-of-the-art manufacturing ensures every sheet delivers lasting strength and distinctive visual appeal, making them ideal for contemporary and classic interiors alike.

ABOUT COMPANY

Founded in 2009, Gracious Veneers Pvt. Ltd. stands today as one of India's leading manufacturers of premium natural wood veneers. What began as a partnership firm has evolved into a respected Private Limited Company since 2011 — carrying forward a legacy of craftsmanship and innovation that dates back to 1980.

With decades of experience and deep-rooted expertise, we have built a strong national and global clientele, continuously expanding our presence across industries and geographies. At Gracious Veneers, we exclusively use export-grade sliced veneers, ensuring the finest fit, superior finish, and unmatched quality in every sheet we produce.

Our veneers are not just materials — they are expressions of nature's character, carefully preserved and presented through our wide product range. Each design captures the intricate beauty, warmth, and timeless appeal of natural wood, making every space come alive.

We are committed to complete customer satisfaction, guided by our philosophy of "adding nature to life." Our operations are built on four key pillars:

- Exceptional Expertise
- Uncompromising Quality Standards
- Collaborative Relationships
- Tailored Solutions for Every Requirement

At the heart of our work lies a deep love for trees and a profound understanding of nature's diversity. Wood, in its most authentic form, symbolizes value, trust, and endurance. From classic grains to contemporary styles, our vast collection offers something unique for every vision and every project.

At Gracious Veneers Pvt. Ltd., we don't just manufacture veneers — we craft surfaces that tell stories, evoke emotions, and celebrate the beauty of nature in its purest form.

WELCOME MESSAGE

At Gracious Veneers, we believe that every space deserves a touch of nature's finest artistry. Our journey began with a simple vision — to bring the beauty, warmth, and authenticity of real wood into modern design.

Each veneer we create is more than a surface — it's a story. A story of texture, color, and craftsmanship that transforms ordinary interiors into extraordinary expressions of style.

From timeless natural veneers to innovative dyed and fluted designs, every sheet is curated with precision and passion — reflecting our commitment to quality, creativity, and sustainability.

We welcome you to explore our world of veneers — a world where nature inspires design, craftsmanship meets innovation, and every detail speaks elegance.

WE BELIEVE IN GOOD WOOD.

THE MAN WHO TRANSFORMED THE WOOD VENEER INDUSTRY.

Mr.ThomasKutty P

Mr. Thomas Kutty began his journey in the wood veneer industry in the early 1980s, working at India's first veneer slicing mill in Cochin, Kerala. His deep passion for wood craftsmanship and technical expertise soon set him apart.

In 1993, he was called to Ahmedabad, where he took charge of production for one of today's most renowned wood veneer panel manufacturers. During his tenure, he pioneered the development of smoked veneers and the mix-matched veneer series — innovations that revolutionized the veneer industry and continue to inspire design trends even today.

In 2008, his creative vision led to the development of rough-cut veneers, a breakthrough that earned international recognition when the company received an award at the Interzum Exhibition for outstanding innovation and design.

Mr. Thomas Kutty's relentless pursuit of excellence and innovation has not only shaped the modern veneer industry but also inspired a new generation of craftsmanship in wood.

OUR VISION

VISION 01

To be a global leader in the veneer industry by setting benchmarks in quality, sustainability, and design innovation — transforming the way wood is experienced in interiors.

VISION 02

To provide creative interior decorative product with continuous innovation. Never compromise with the quality. To be socially responsible organisation with environment friendly practices.

OUR MISSION

- To provide designers, architects, and furniture manufacturers with the finest range of veneers sourced from sustainable forests around the world.
- To ensure every veneer we produce reflects perfection in texture, color, and craftsmanship.
- To foster long-term relationships built on trust, quality, and creativity.

OUR VALUES

- **Integrity:** We believe in transparency and ethical business practices in everything we do.
- **Innovation:** We constantly evolve our products and processes to meet modern design demands.
- **Sustainability:** Our veneers are responsibly sourced, supporting eco-conscious living.
- **Excellence:** Every sheet that bears the name Gracious Veneers stands for unmatched quality.

MANUFACTURING EXCELLENCE

Our state-of-the-art manufacturing unit is equipped with advanced European machinery, ensuring precision in every process — from slicing, smoking and pre-polishing to pressing and finishing. Strict quality control measures are followed at every stage, guaranteeing that each veneer sheet meets global standards of excellence.

We blend craftsmanship with technology, ensuring that every product not only looks stunning but also performs exceptionally over time.

SUSTAINABILITY COMMITMENT

At Gracious Veneers, we are deeply committed to responsible forestry and environmental stewardship. Our raw materials are sourced from certified and sustainable forests. We ensure minimal wastage, promote eco-friendly production practices, and continuously strive toward a greener tomorrow.

WHY CHOOSE **GRACIOUS** **VENEERS?**

- Premium Quality, Guaranteed.
- Diverse Range of Designs & Textures.
- Customization for Designers & Architects.
- Sustainable and Ethical Sourcing.
- 48hours Delivery & Reliable Service.

SPECIFICATIONS

- Thickness of veneer sheet – 4mm
- Thickness of the base plywood: 3.2mm
- For furniture manufacturers and OEM's requirement, we also use different base materials like MDF, HDHMR, Lipping, paperback and any other thickness in ply.
- Face veneer thickness is usually 0.5mm and above.

STANDARD SIZES :

- 7ft x 3ft
- 7ft x 4ft
- 8ft x 3ft
- 8ft x 4ft
- 10ft x 4ft

PROPERTIES :

- Eco friendly
- Moisture Resistant
- Anti Fungal
- 100% Termite Resistant
- Weather Resistant

BASE PLY :

- The base ply is constructed using a 2.2mm core and 0.6mm face veneers on both sides, all sourced entirely from Indonesia. Each sheet is precisely calibrated, ensuring zero thickness tolerance and no dimensional errors for a flawless finish.
- To guarantee durability and water resistance, we use only phenolic resins, making the plywood fully waterproof and suitable for a wide range of interior and exterior applications.

ADDING NATURE TO LIFE

HOW DO WE PROCESS?

Compared to wood, one of the primary advantages of using veneer is stability. While solid wood can be prone to warping and splitting, because veneer is made of thin layers of wood glued together, the chances of splitting or cracking are reduced. Further, the glue used provides additional strength, making the end result stronger than natural wood. Initially, for manufacturing veneers, logs are sliced into flitches with specific cutting methods to achieve a required grain pattern. Veneer flitches are then dried and graded. All these graded flitches undergo treatment: fumigation, drying and weathering. According to the clients' requirements, the patterns and layouts are created by joining the flitches together. Once the layout is prepared, the sheet goes for pressing. Finally, the sheet goes through finishing procedure and quality check is done. The best quality products are labeled and packed for dispatch.

At Gracious Veneers, we proudly tailor our services to meet the needs of each individual, taking time to understand the requirement and make a goal to fulfil it. Clear values is what we rely on. We believe that connection with nature contributes to the physical well-being as nature heals, soothes and restores our health as well as our environment. Hence, our aim is to deliver a small part of nature in your life.

Our philosophy is based on immense trust, high standardized quality, efficient services, unparalleled expertise, mutuality, freedom, reliability and team support.

SELECTION GUIDE

There are so many factors to consider when you are choosing Gracious Veneers. Our process guides you through the decisions you'll need to make to ensure you create the right effect with the right panel construction that is appropriate to the end use.

TYPE AND SPECIES

Select the type of veneer you want and species.

THE CUT

Select the type of cut.

LAY-UP

How the sheets laid up—that dramatically affects the look!

GRADE

What grade of veneer you need—it will vary depending on use and how it is viewed.

GRAIN

The grain direction of the veneer is a key decision in the final look.

SUBSTRATE TYPE

What type and thickness of panel do you want the veneer pressed onto?

FINISHING & EDGING

What coating needs to be applied?

What about edging?
